

2008 NPGA Funded Research Projects

Project Title *Evaluation of New Weed Control Options in Pulse Crops in ND & MT*
Researcher Brian Jenks
Affiliated With NDSU – Minot
Funded Amount \$12,500

Project Title *Evaluation of Winter Pea and Winter Lentil Germplasm for Adaptation to ND*
Researcher Eric Eriksmoen
Affiliated With NDSU – Hettinger Research Extension Center
Funded Amount \$6,692

Project Title *Improvement of High-Amylose Dry Peas for Northern Plains*
Researcher Norm Weeden
Affiliated With MSU - Bozeman
Funded Amount \$3,300

Project Title *Learning the Energy Story of Pulse Crops*
Researcher Perry Miller
Affiliated With MSU - Bozeman
Funded Amount \$6,858

Project Title *Core Set Evaluation of Pulse Crop Varieties at NDSU RECs*
Researcher Blaine Schatz
Affiliated With NDSU – Carrington Research Extension Center
Funded Amount \$17,640

Project Title *Survey, Identification & Management of Root Rot Pathogens Affecting Field Peas in ND (Goswami); Management of Seeding and Rot Disease of Pea in ND & MT Using Seed Treatments (Markell)*
Researcher Rubella Goswami and Sam Markell
Affiliated With NDSU - Fargo
Funded Amount \$35,000

Project Title *Investing the Persistence and Effectiveness of Rhizobial Inoculants Affected by Previous Pea Rotation History and Inoculant Formula*
Researcher Chengci Chen and Kent McKay
Affiliated With NDSU/MSU
Funded Amount \$18,010
